PROFESSIONAL SUMMARY

AI-first Systems Engineer with hands-on experience building intelligent, production-grade applications across the full stack. Skilled in designing modular backend architectures with Node.js, MySQL, and MongoDB, and crafting responsive user experiences using React and React Native. Experienced in integrating AI/ML capabilities and LLM-driven workflows into real systems, alongside data visualization with Tableau. Strong foundation in robotics and distributed systems using ROS 2, enabling end-to-end thinking from hardware interfaces to cloud services. Passionate about turning complex system design into reliable, scalable products.

EDUCATION

Bachelor of Technology (Computer Science)	2024 - 2028
Rishihood University	Grade: 9.0/10.0
Intermediate (Class XII)	2022 - 2023
MK DAV Public School	Grade: 85.5%
Matriculation (Class X)	2020 - 2021
Patratu School Of Economics	Grade: 88.1%

INTERNSHIPS

Firmware developer intern	September 2025 - January 2026
MeNeM Inc	<i>Remote</i>
Designing and developing Embedding Firmware and Systems using the ESP 32 S3, Raspberry Pi, ARM, Drivers, Communication protocol and Debugging / Testing. Collaborating with cross-functional teams to define, design, and ship new features. Troubleshooting and debugging issues to ensure optimal performance. Debug and Testing in Embedding Firmware and other functional frameworks.	

SKILLS

Computer Languages: Python, C++, HTML, CSS, JavaScript, Java

Software Packages: Linux, Tailwind, Next JS, Prisma ORM, React, Node.js, OpenCV, MySQL

Additional Courses: Data Structure

Soft Skills: Public speaking, Leadership, Team Building, Time management, Decision-making, Research, Delegating tasks, Creativity, Teamwork, Critical Thinking, Responsibility, People skills, Communication Skills

Others: Entrepreneurship, LLM, Generative AI
